

WESSELMAN WOODS FIELD GUIDE

MUSHROOM SERIES

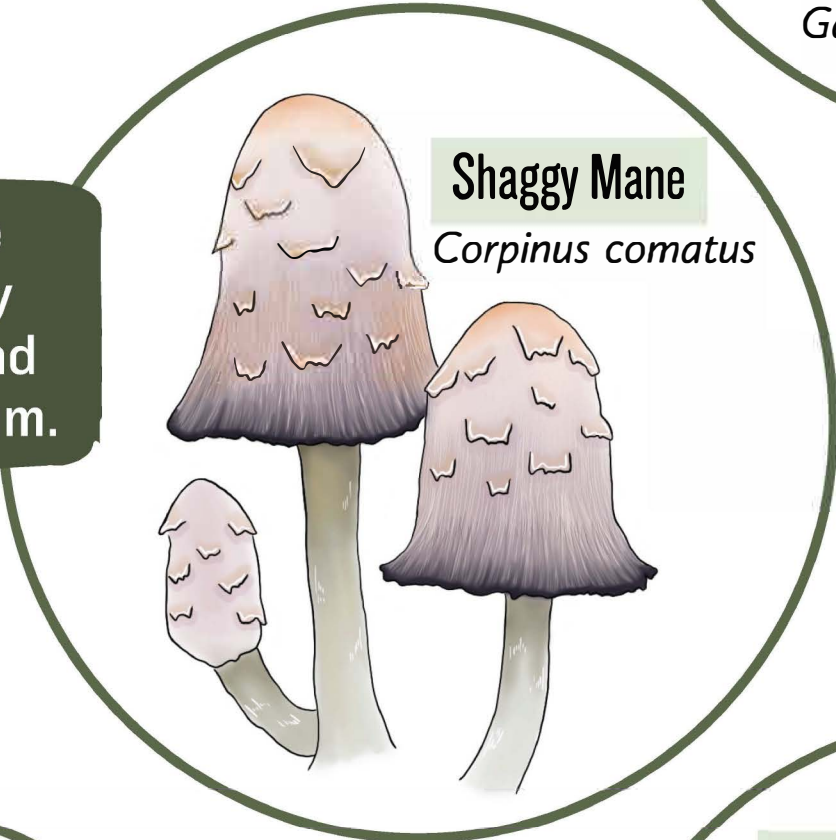

Turkey Tail
Trametes vericolor

Mushrooms are genetically closer to humans than to plants.

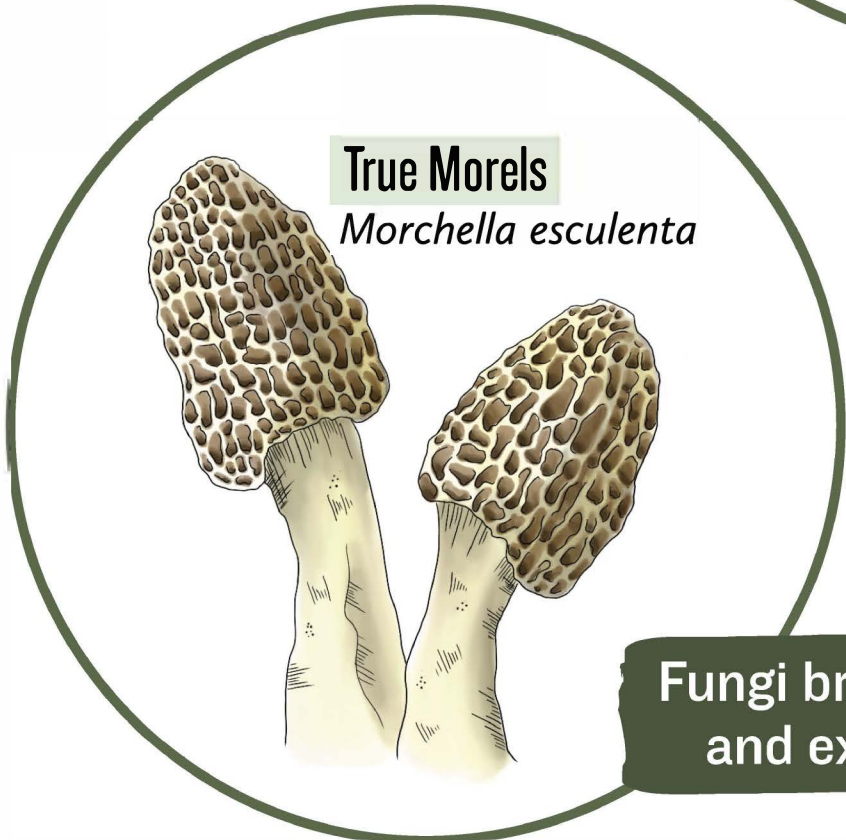

Artist Fungus
Ganoderma applanatum

Mushrooms are the fruiting body of an underground organism, mycelium.

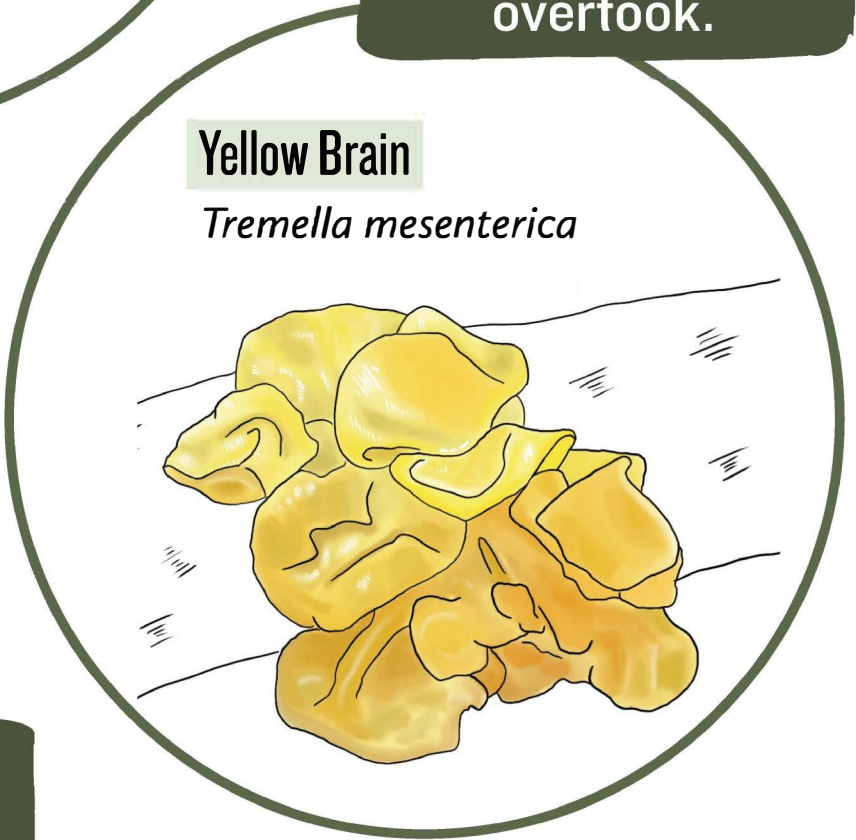

Shaggy Mane
Corpinus comatus

Giant mushrooms used to cover the earth before trees overtook.

True Morels
Morchella esculenta

Fungi breath oxygen and exhale CO₂.

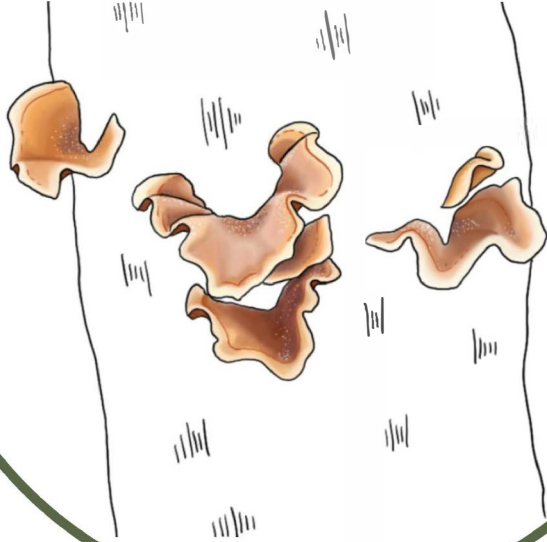

Yellow Brain
Tremella mesenterica
